The purpose of mediumship is to bring proof of soul survival but, in a way that brings through the spirit communicator's true essence. During this one day workshop we'll look at linking with the spirit and holding the power, keeping the mind of the medium out of the message, conveying evidential information in a natural way that brings through the spirit's true essence and simplifying the mediumship process in order to bring through clear, specific & accurate information with ease. There will be practical exercises for all concepts taught.
